

# No. AK027

# Certificate of Analysis

Product Name: Methoxy Poly(ethylene glycol)-*b*-Poly(lactide-co-glycolide)  
( $M_w \sim 2,000:15,000$  Da, 1:1 LA:GA) (Lot#: 180514RAI-A)

| Polymer             | M <sub>n</sub> (from GPC) | M <sub>w</sub> (from GPC) | PDI  |
|---------------------|---------------------------|---------------------------|------|
| mPEG-PLGA           | 16,292                    | 24,647                    | 1.51 |
| mPEG2000 initiator* |                           | *1951                     |      |

\*- from MFG data

- Structure of mPEG-PLGA copolymers
