

No. AP223

# Certificate of Analysis

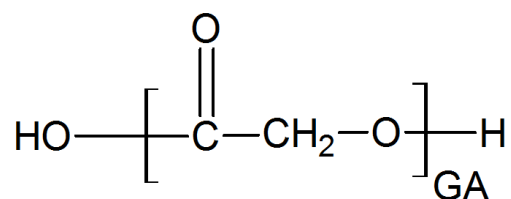

Product Name: Poly(Glycolide) acid endcapped  
(Mw ~ 1,000 - 5,000 Da) (Lot#: 170925JSG-A)

Inherent Viscosity: Rheosense Microvisc System, inherent viscosity in HFIP at 25° C, average of 3 runs

Polymer	Inherent Viscosity
PGA	0.073 ± 0.001

## • Structure of PGA polymers

**Processing note:** Product has been melted at 220 °C and quenched on dry ice to reduce crystallinity and improve HFIP solubility.
