According to Regulation (EC) No 1907/2006 (REACH)

Trade name: Product No:

Version: 2.1/EN 1 Revision Date: 4-14-2015

Section 1: Identification of the substance/mixture and of the company/undertaking 1.1 Product Identifier:

#### Substance 1.1.1

Substance name: Methoxy poly(ethylene glycol)-b-poly(D,L-lactic acid)-succinic acid

(5,000:14,000 Da)

Catalog Number: AI077

CAS No.: N/A Index No: N/A EC No: N/A

REACH Registration No: N/A

- Relevant identified uses of the substance or mixture and uses advised against 1.2
- 1.2.1 Relevant identified uses

Research and Development

Uses advised against: 1.2.2

Not for clinical usage. Not for food, drug, or household usage.

Details of the supplier of the safety data sheet: 1.3

> Supplier: Akina, Inc.

3495 Kent Avenue

West Lafayette, IN 47906

Technical Contact: John Garner

Email: jg@akinainc.com

**Emergency Telephone Number:** 1.4

Phone: 765-464-0501x304

#### Section 2: Hazards Identification

#### 2.1 Classification of the substance or mixture

SCL and/or M-factor	Classification procedure
N/A	Not established
	,

Classification according to	SCL and/or	Classification procedure
67/548/EEC or 1999/45/EC	M-factor	_
None	N/A	Not established

#### 2.1.1 Additional information

Toxicological properties are not known.

#### 2.2 Label elements

#### 2.2.1 Labelling according to Regulation (EC) No 1272/2008 [CLP/GHS]

According to Regulation (EC) No 1907/2006 (REACH)

Trade name: Product No:

Version: 2.1/EN 2 Revision Date: 4-14-2015

Product identifier:

Substances: Methoxy poly(ethylene glycol)-b-poly(D,L-lactic acid)-succinic acid

(5,000:14,000 Da)

Hazard components for labeling:

None

Hazard pictograms

None

**Hazard Statements:** 

None

**Precationary Statements:** 

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P301+P330 IF SWALLOWED: Rinse mouth.

P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

#### 2.3 Other Hazards

None

Section 3. Composition/information on ingredients

3.1 Substances

Substance name: Methoxy poly(ethylene glycol)-b-poly(D,L-lactic acid)-succinic acid (5,000:14,000 Da)

Catalog Number: AI077

CAS No.: N/A Index No: N/A EC No: N/A

REACH Registration No: N/A

Purity: ≥90% Synonyms: None Stabilizers: None

Hazard impurities: None

Material is not a mixture

#### Section 4.: First aid Measures

4.1 Description of first aid measures

#### 4.1.1 General Informations:

Substance is non-toxic solid however not all toxicological properties have been ascertained. For this reason, prudent care should be taken in the event of exposure.

4.1.1 Following inhalation:

If breathing is difficult, contact emergency personnel.

**4.1.2** Following eye contact

Flush eyes with flowing water for at least 15 minutes.

4.1.3 Following skin contact:

Wash skin with deluge of water for at least 15 minutes.

4.1.4 Following ingestion:

According to Regulation (EC) No 1907/2006 (REACH)

Trade name:

Product No:

Version: 2.1/EN 3 Revision Date: 4-14-2015

If swallowed, do not induce vomiting. Do not give anything to drink. Obtain medical attention without delay. If swallowed, wash out mouth with water if person is conscious. Remove to fresh air.

#### 4.1.6 Self-protection of the first aider:

First aider should wear protective gloves/protective clothing/eye protection/face protection as appropriate for the situation.

4.2 Most important symptoms and effects, both acute and delayed

Not identified

4.3 Indication of any immediate medical attention and special treatment needed

None specified. Treatment should be supportive and symptomatic.

Section 5. Firefighting measures

5.1 Extinguishing media:

All types of extinguishing media are suitable

5.2 Special hazards arising from the substance

Hazardous combustion products: oxides of carbon

5.3 Advice for fire fighters

None

5.4 Additional information:

Flash point, °F: no data

Method: no data

UEL: no data / LEL: no data

Autoignition temperature, °F:no data

#### Section 6; Accidental release Measures

# 6.1 Personal precautions, protective and emergency procedures

Any information listed below is to be considered in addition to internal guidelines for isolation of spill, containment of spill, removal of ignition sources from immediate area, and collection for disposal of spill by trained, properly protected clean-up personnel.

#### 6.1.1 For non emergency personnel

Personnel should wear protective gloves/protective clothing/eye protection/face protection as appropriate for the situation. Sweep up powders and dispose of in accordance with local laws. Absorb liquids on absorbent material. Contain spilled liquids. Protect personnel from exposure

#### 6.1.2 For emergency responders

Personnel should wear protective gloves/protective clothing/eye protection/face protection as appropriate for the situation. Sweep up solids/powders and dispose of in accordance with local laws. Absorb liquids on absorbent material. Contain spilled liquids. Protect personnel from exposure

#### **6.2** Environmental Precautions

- 6.3 Methods and material for containment and cleaning up
- 6.3.1 For containment:

Any airtight container is suitable for containment

According to Regulation (EC) No 1907/2006 (REACH)

Trade name:

Product No:

Version: 2.1/EN 4 Revision Date: 4-14-2015

6.3.2 For cleaning up:

Sweep up and shovel. Keep in suitable, closed containers for disposal. Sweep up solids/powders and dispose of in accordance with local laws.

6.3.3 Other information:

None

6.4 Reference to other sections For disposal see section 13.

6.5 Additional information

None

Section 7: Handling and storage

7.1 Precautions for safe handling

Store material in tightly sealed containers. Personnel should wear protective gloves/protective clothing/eye protection/face protection as appropriate for work being performed. Prior to opening package, warm to room temperature.

#### 7.1.1 Protective measures:

Store material in tightly sealed containers. Personnel should wear protective gloves/protective clothing/eye protection/face protection as appropriate for work being performed. If dissolving material in an organic solvent handle the organic solvent per manufacturer SDS.

#### 7.1.2 Advice on general occupational hygiene

Do not eat, drink, or smoke in work areas. Wash hands after use. Remove contaminated clothing or protective equipment before entering eating areas.

#### 7.2 Conditions for safe storage

Technical measures and storage conditions:

To preserve integrity of product store at -20°C with desiccant. Prior to opening package, warm to room temperature.

Packaging materials:

Compatible with glass and plastic packaging.

Hints on storage assembly:

Storage Class: solid

Materials to avoid: Store material away from strong oxidizers.

Further information on storage conditions:

None

7.3 Specific end uses:

Recommendations: Research and development, not for clinical usage

Specific end uses: polymeric formulations

Section 8: Exposure controls/personal protection

According to Regulation (EC) No 1907/2006 (REACH)

Trade name: Product No:

Version: 2.1/EN 5 Revision Date: 4-14-2015

**8.1** Control parameters

The use of eye protection in the form of safety glasses with side shields and the use of skin protection for hands in the form of gloves are considered minimum and non-discretionary in work places and laboratories. Any recommended personal protection equipment or environmental equipment is to be considered as additional to safety glasses and gloves.

- Use chemical splash goggles and face shield
- Use latex or equivalent gloves

8.1.1 Occupational exposure limits:

Limit value type (coun try of origin )	Substance name	EC- No.	CAS- No.	Occu tiona expos re lin value	l su nit	Monitori ng and observati on	Peak limita tion	Source

# 8.1.6 Risk management measures according to used control banding approach None

#### 8.2 Exposure controls

#### 8.2.1 Appropriate engineering controls:

Use of an externally vented or internally ducted fume hood can reduce formation of nuisance dust.

# 8.2.2 Personal protective equipment:

#### 8.2.2.1 Eye/Face protection

The use of eye protection in the form of safety glasses with side shields is suggested. Use chemical splash goggles and face shield.

#### 8.2.2.2 Skin protection

Latex or equivalent gloves

#### 8.2.2.3 Respiratory protection:

Particulate respirator (N95 type) is suitable for reducing any nuisance dust.

#### 8.2.2.4 Thermal hazards:

None

#### 8.2.3 Environment exposure controls:

None

#### 8.2.4 Consumer exposure control

Material is provided only for research and development usage. As such it is not intended for household, drug, food or other direct consumer usage.

#### Section 9. Physical and chemical properties

According to Regulation (EC) No 1907/2006 (REACH)

Trade name: Product No:

Version: 2.1/EN 8 Revision Date: 4-14-2015

9.1 Information on basic physical and chemical properties

Explosive	Not	
properties	established	
Oxidizing	Not	
properties	established	

#### 9.1.3 Physicial hazards:

Explosives: Material is not explosive

Flammable gases: Material is not a flammable gas

Flammable aerosols: Material is not a flammable aerosol

Oxidizing gases: material is not an oxidizing gas

Gases under pressure: Material is not a gas under pressure Flammable liquids: Material is not a flammable liquid Flammable solids: Material is not a flammable solid.

Self-reactive substances and mixtures: Material is not a self-reactive substance or mixture.

Pyrophoric liquid: Material is not a pyrophoric liquid Pyrophoric solid: Material is not a pyrophoric solid.

Self heating substances and mixtures: Material is not a self-heating substance or mixture Substances or mixtures which, in contact with water emit flammable gases: Material is not a

Substance or mixture which, in contact with water emits a flammable gases.

Oxidizing liquids: Material is not an oxidizing liquid. Oxidizing solids: Material is not an oxidizing solid. Organic peroxides: Material is not an organic peroxide. Metal corrosion: Material does not cause metal corrosion.

#### 9.2 Other information

None

# Section 10: Stability and reactivity

## 10.1 Reactivity

Material slowly hydrolyzes to non-toxic components in presence of water or other nucleophiles.

# 10.2 Chemical stability

When stored properly material is stable for two years.

#### 10.3 Possibility of hazardous reactions

None

#### 10.4 conditions to avoid:

Heat and water may cause degradation of the material. This does not present a danger but damages the provided material.

#### 10.5 incompatible materials:

Strong oxidizers.

#### 10.6 hazardous decomposition products:

None

According to Regulation (EC) No 1907/2006 (REACH)

Trade name: Product No:

Version: 2.1/EN 10 Revision Date: 4-14-2015

## **Section 11: Toxicological information**

The toxicological properties of the substance have not been established.

Acute data: no data Subchronic data: no data

#### Section 12: Ecological information.

The ecological impact of the substance has not been established. Given that the substance is a biodegradable polymer there is no anticipated ecological toxicity.

# Section 13: Disposal considerations

The material is not listed in USA 40 CFR Part 261.33 for hazardous disposal. The material must be disposed of in compliance with all Federal, State and Local Regulations.

#### **Section 14: Transport information**

Refer to bill of lading or container label for DOT or other transportation hazard classification, if any. Material is not considered hazardous for transportation.

#### **Section 15 Regulatory information**

15.1 The material is not a regulated or restricted substance. Material is not intended for clinical or human usage.

# 15.1.1 EU regulations

None

#### 15.1.2 National/State Regulations

*Prop 65* – Column A identifies those items which are known to the State of California to cause cancer.

Column B identifies those items which are known to the State of California to cause reproductive toxicity.
